

Powered by ICX® Technology

- Joint development of FEDDEM and AKRO-PLASTIC
- **ICX® Technology** ensures **highest compound quality**, irrespective of the production site
- The **ICX® Technology system** (Innovative Compounding- and Extrusion Technology) comprises of identical machinery, identical peripheral equipment and therefore identical processes
- The focus is on **customer value**

$$\text{Customer value (CV)} = \frac{\text{Quality (Q)} \cdot \text{Flexibility (F)}}{\text{Price (P)} \cdot \text{Time (T)}} \triangleq \text{Investments}$$

We Look Forward to Meeting with You!

LFT Pultrusion Technology

- Efficient production performance
- Excellent mechanical material properties
- Highest flexibility
- Modular design
