# FEDDEM

## Cleaning Unit for Twin-screw Extruder Barrel

- For easy cleaning of the barrel borings after removal of screws
- Two brushes in simultaneous operation
- Compact distribution gearbox suited to the extruder size
- Electrical drive unit with locking mechanism and torque limiting clutch
- For extruders with screw diameters from 48 mm to 85 mm
- Length matched to the processing unit of the extruder
- High protection against injuries through a torque-neutral operating principal
